

For low product moisture Wyssmont's TURBO-Dryer is best

Actual comments from our customers:

"The only dryer we could find that could dry our product low enough was your TURBO-Dryer."

"The only dryer that could dry our product without thermal degradation."

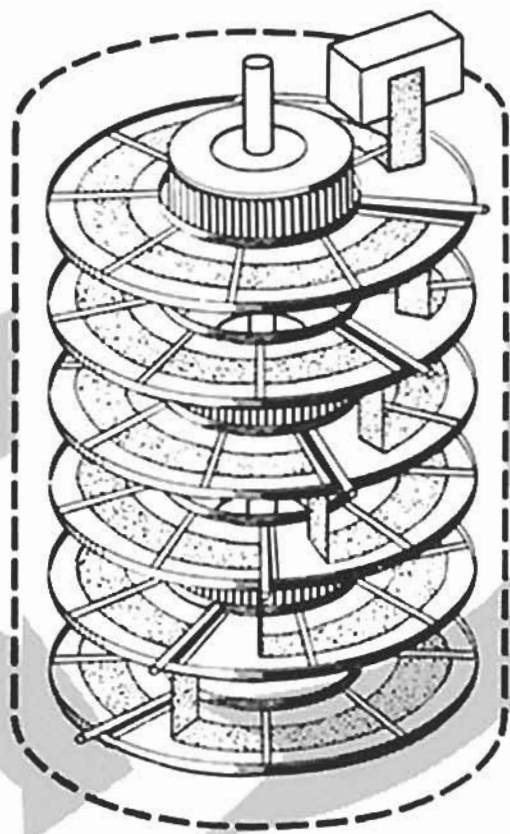

"We turn it on and forget it."

"The only dryer that would dry our plastic pellets to our extremely low moisture requirements. All that we've done to it in the 10 years we've been using it is lubricate it."

"All our product has to meet FDA solvent content requirements. It is not easy to get out. Only Wyssmont's TURBO-Dryer does it satisfactorily."

"It's the best piece of equipment in our plant."

"The Wyssmont Dryer product stays free flowing and non-caking longer than that from any other dryer."
